WORKSHOP TROLLEYS

QUALITY TW-359 · TW-278

Built for a working shop

Not a hobby kit with a high piece count — here is what you can check.

WHO BUILDS HEADLAND TROLLEYS

2011	5,000+ m²	100–200	≈ 50%
MAKING TOOLS SINCE	OWN FACTORY, HANGZHOU	EMPLOYEES	OF OUTPUT TO EUROPE

Made in-house. A specialist tool-set and tool-cabinet manufacturer in Zhejiang, China. Cabinets are laser-cut, bent, stamped, welded, painted and assembled in its own plant on three production lines.

Tested in-house. The factory runs its own hardness, torque and salt-spray test equipment, so tools and coatings are checked before they are packed.

Sold where buyers are strict. About 30% of its output goes to Western Europe and 20% to Eastern Europe; it exhibits at the International Hardware Fair in Cologne.

WHAT SETS THEM APART

Budget cart: an unbranded imported 258-piece trolley set as sold at Canadian auctions in 2025, contents per its carton label. HEADLAND contents from the manufacturer; piece counts are the manufacturer's.

A LOCAL SUPPLIER

VY Build imports HEADLAND trolleys directly from the factory. Questions about a trolley or its tools go to one number in Charlottetown: 902-916-8523.

GOOD TO KNOW

Both sets are metric — no SAE, no Robertson. The TW-359's insulated screwdrivers and pliers are not sold as VDE-certified.

WHAT THE MARKET OFFERS

COMPARISON

Workshop trolleys compared

Canadian Tire, Home Depot, Princess Auto and Costco do not sell a filled 7–12-drawer steel roller cabinet in this class (checked 8 October 2026). A shop buys a cabinet and a set separately — or a European professional trolley, from about CAD 1,700 for 215 tools up to CAD 7,500 for 308.

Filled sets on sale in Canada

WHERE	PRODUCT	PCS	DRAWERS	SIZES	CAD
